

TEAM TRAINING

A.C. Futbol Team Training will assure cohesiveness achieved through a “team family concept”. Coach Csiszar through his career, as a professional soccer player has identified key factors critical to the success of a team unit.

Team training will demonstrate how to create opportunities off the ball as well as attack the goal with speed. A.C. Futbol will encourage team players to think one step ahead of their opponents by cause and effects of their immediate play.

We at A.C. Futbol recognize that the majority of coaches are well aware of their teams deficiencies. Your concerns are our concerns as we work together to prepare your team to advance to the next level and turn you deficiencies into assets.

Coach A. Csiszar:
